You can catch a Cough very easily, and when you get a cough you may have a score of Remedies suggested in a day. DOES NOT BELIEVE HOSTILITIES ARE OVER.

General Merriam seems to think that War is Resumed Several Countries Will be in the Fight.

San Francisco, Nov. 12.—General Merriam is quoted as saying:

"It would not surprise me to see negotiations between the United States and Spain broken off. If the work of the commission proves fruitless it means a renewal of war. If Spain refuses to accede to our demands it will show she has secured substantial hope of assistance from Europeans. Should Germany take a hand in this matter, England will follow suit, and then I look for France to put her finger in the pie."

ANSWER PREPARED.

Spanish Evacuation Commission Ready to Reply to American.

New York, Nov. 13.—A dispatch to The Herald from Havana, says:

General Parrado has informed General Butler that the Spanish commission was ready to give its answer to the American ultimatum presented at the joint session nearly three weeks ago. The result will be a joint session at the Camera Insular tomorrow morning at 9 o'clock. The Americans confidently hope that a full agreement on the date of evacuation will then be reached. General Butler called on General Blanco to intercede personally in behalf of the insurgent Colonel Ballacoa, who was captured with General Ruiz Rivera. Ballacoa is in the Cabanas, not as Gen. Butler supposed, a prisoner of war, but held on the charge of manslaughter. General Blanco said the case was at present before the Madrid supreme court.

Dr. O'Reilly who has been ordered to report in Washington will leave for the north by Wednesday's boat to Tampa. Dr. O'Reilly will urge upon the administration the immediate necessity of establishing an American hospital and the organization of a sanitary brigade for cleaning the city. A careful estimate has been made showing that the surface of the city in the streets and yards may be cleaned and disinfected at a cost not exceeding \$20,000. When it is considered that the expenditure of this sum will mean the saving of American lives, it seems more than criminal that it has not already been done.

Beyond building temporary docks on the Marian beach, nothing has been done to make ready for the American troops. Considering the number of commissions and officials that have inspected and re-inspected the camp sites, dodged the yellow fever and fled at the approach of that disease, what has been accomplished seems insignificant.

He Was Taken In at Topeka For Alleged Embezzlement at Nadeau.

He next visited several Indian reservations and secured \$10,000 in government checks which he exchanged for bills of large denominations. He is said also to have taken \$4000 from the firm's store and postoffice at Nadeau. A reward of \$5000 was offered for his arrest.
